On our table lies a letter awaiting answer, which, like many others of the same kind, we are not prepared to answer satisfactorily. THE unrestrained and blasphemous egotism of Robert Ingersoll found utterance in the courtroom at Washington a few days since, in the following sentence: "I would detend myself with my little, puny power at the day of judgment, if assailed by God.' Such an utterance shows a total disregard, on the part of this outspoken unbeliever, for the feelings of others, and an utter absence of respect for the beliefs of his hearers. He may re gard such utterances as a grand exhibition of daring, but it is the expresnot forget that when brought before that tribunal there will be no appeal from its sentence, and that no judgment will be passed against him that will not be sanctioned by the voice of his own conscience.

Ex-Attorney-General Black is reported as expressing the opinion that "members of legislative bodies are not influenced in their action or judgment by free railroad tickets. Doubtless this is so. We all know the benevolent tendencies of great railroad corporations. To the Editor of the Times-SIR: I am not much of a hand to write. There is ot much to write in this country. It is worst looking country that man ever looked upon. It is dry and desolate. There is not a bit of vegetation to be seen You have to buy all your water. It is Butter: Los Angeles... Northern.... Pickled...... ier to get a drink of whisky than water. here is no formation to anything. There is plenty of silver, no doubt; but there are not two pieces alike in the camp. The ore is all colors, shapes and substances that can be imagined. There is very little Hono Ex, light... Ex, dark... olid rock in the mountains. It seems that choas went wild on a bender. I have been to a great many mines, or holes in the ground. Nobody seems to be trying to develop them. It seems to be a poor man's camp. The names of the mines I forget them. There are a few, it is said, that will go from \$1500 to \$2000 a ton, and I can not doubt it. They have to haul the ore so far to the mills that it knocks the profit. Get away up on the mountain and look up Death Valley. It looks like some nice vineyard. You can see what you would take for some nice lake. You get left on that; it is nothing but sand. Some days you can see the mirage and been to a great many mines, or holes in Sweet Po'toes Pink.... Bayous. Lima... Navy... Butter.. Hens.... Roosters... Broilers... Turkeys... Ducks... Geese... Some days you can see the mirage and some you can't. Water Analysis. San Francisco, September 18, 1882.

For Mr. Victor Beaudry, Los Angeles:

I have carefully analyzed the sample of water—marked as under—and find the following to be the proportions in every 100 parts:

[Mark of sample, Los Angeles.]

Solid residue, 29.16 grains per United States callon.

To whomi t may concern:

I take pleasure to lay before the public the bove certificate of analysis of the water from BEAUDRY WATER WORKS

FINE BUILDING LOTS FOR SALE! WATER SUPPLY.

These lots are supplied by the purest of water, as may be seen by the analysis published above. The present capacity of the pumping machinery is 75,000 galions per hour, or 1,870,000 in twenty-four hours.

The source of supply is inexhaustible. During last winter I laid 4000 feet of 8-inch cast-fron pipe, and in a few weeks I will commence the laying of 4000 feet more of 8-inch and 12-inch pipe; also, will lay smaller sizes in considerable quantity, as they may be required.
